

Editorial

This issue of the SAFOG journal comes to you with mixed feelings. We are thankful to the SAFOG council for continuing our appointment as editors for one more term. The editorial board and the council members have changed. The last SAFOG biannual congress at Colombo was very enriching experience. SAFOG countries are coming nearer and understanding the health needs of each other.

We still appeal for contributions from SAFOG members. This is your journal, it is indexed and read all over the world, please submit papers, reviews, case reports.

This issue comes with a DVD on Laproscopic Myomectomy and video on Suturing with Barbed Sutures. Dr Rajesh Modi has beautifully recorded myomectomy and made it look so simple.

An inspiring presidential speech by newly elected president highlights the needs of SAFOG. Original articles, review articles contemporary studies, clinical practices and case reports on various topics are included.

Happy Reading

Regards
