## AICOG OBSTETRICS & GYNECOLOGY UPDATE 2016

In this rapid-changing and fast-moving world, changes in medical sciences are evolving every day, encompassed with new discoveries and developments. This book contains all the updated information needed for the practicing gynecologists and obstetricians and is presented in a very precise and lucid style covering all related topics.

With time, there has been an upsurge in the number of clinical cases and complications related to women's health. Spot-on diagnosis has become a challenging task and, therefore, obstetricians and gynecologists must be prepared for such challenges. This book will help them to enhance their knowledge and address patient needs accordingly, thereby serving for the betterment of women health care sector

It will also be a valuable text and reference book for the postgraduates. I hope the readers will get as much pleasure and new knowledge as I got from it.

Overall, the book is a successful effort by the authors.

**Alka Kriplani**

Professor & Head,  
Department of Obstetrics and Gynaecology  
Director-in-Charge WHO-CCR, HRRC & Family Planning  
All India Institute of Medical Sciences
